Lakeside Quality Commitment:

Through quality products, a focus on customer service, and streamlined global manufacturing allows Lakeside Construction Fasteners to secure a competitive advantage in the global economy. Today, LCF with many years of expertise provides innovative programs that have reduced customer inventory, material, and transportation costs. We have the experience and proven record of providing multi-channel sourcing solutions to our customers that best fit their individual needs.

- ISO/QS/Six-Sigma approved manufacturers available upon request!
- Quality departments to "Make Quality Happen" (in-house labs and testing equipment)!
- Quality departments versed in most major internationally established quality standards such as UL, CSA, CUL, NSF, ASTM, ANSI, BSI, etc!
- Products manufactured and inspected to customer standards established before production begins!
- Pre-shipment audits to agree A.Q.L. Samples based upon MIL-STD-105D/E or BS5001, etc!

- Manufacturer selection tailored to customer needs: quality, quantity, experience, price, financial strength, technology strength, etc.
- Vendor surveys and evaluation available to meet customer requirements.
- Comprehensive C-TPAT evaluation and analysis.
- Regular on-site visits by overseas and US personnel.
