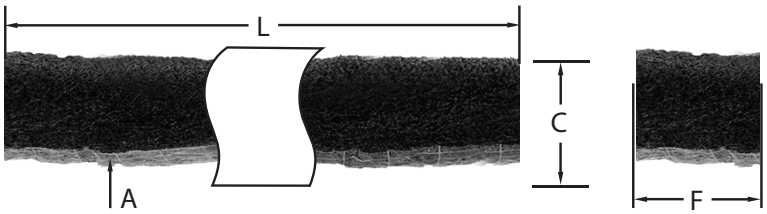
ECONOMY

SC110VENT™-EFLEX

LOW COST IN-PLACE INSTALLATION

- Seals out dust, debris, wind-driven rain & snow!
- Highly resistant to moisture!
- Conforms to multiple metal panel profiles and fills voids!
- Excellent compressibility!

Made in the U.S.A.



Part #	L	C	F	Adhesive
BG102020FLEX	20'	1"	2"	1 Bead L

RIDGE VENT SECURE™

Specifications

Air Permeability	760 Cubic Feet per minute
Heat Resistance	325˚F (163˚C) for 550 hours
Cold Crack	-130˚F (-55˚C)
Snow Infiltration	0
Tensile Strength	16 PSI – Elongation 175%
Attic Ventilation	Meets UBC Code
Net Free Area	17.6 sq. inches per Linear Foot at the ridge

Packaging

Description: 1" x 20' - (Sold by the Roll) In Stock
1" x 20' - (65 rolls per Tote) In Stock

Size: Panel Profiles from 1/2" to 1"

Innovation: Patented UV & Antimicrobial Coatings

Material: Non-Woven; Promotes free air flow

ECONOMY SC110VENT-EFLEX™

LOW COST IN-PLACE INSTALLATION

1

Single Adhesive Bead
For secure insulation & maximum hold!

2

NovaFlex
Seal & secure lapping ridge caps. 32 stock colors to color match your ridge caps!
