T17 FASTLOK™

The **T17 FASTLOK™** by Lakeside Construction Fasteners allows for metal panels to be stitched and secured in-place to prevent separation! With the deep major thread design the **T17 FASTLOK™** will help bond metal panels together to resist panel separation when utilizing the **T17 FASTLOK™** as a stitch fastener. **T17 FASTLOK™** is a great affordable solution to help prevent panel overlapping gaps!

T17 FASTLOK™ SYSTEM:

- **T17 Cut point for quick Panel Penetration!**
- **Engineered thread design to lock Panels In-Place!**
- **T17 FASTLOK for Speed of Installation!**
- **EPDM washer for Positive Seal!**
- **Innovative L3 Dura Protec™ coating to Prevent Red Rust!**

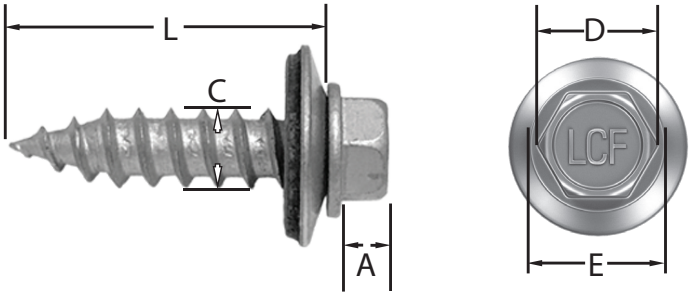
"Lakeside Construction Fasteners Providing Alternative Fastener Solutions!"™

T17 FASTLOK™

Fastener Dia.: #12
Head Size: 1/4 & 5/16
Threads: 14
Innovation: T17 Cut Point; Major thread design.
Material: C1022
Washer: EPDM
Coating System: L3 Dura Protec™
Special: 1-1/2" (No Washer)



Part #	L	A	C	D	E
1234250EW2LPSG	3/4"	.140	.198	1/4"	.340

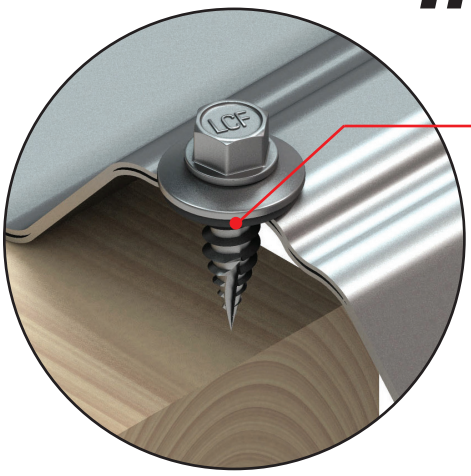
#12 T17 FASTLOK™	65 in lbs.	1600 lbs.	2000 lbs.

Industry Fastener Leader!



- ***Engineered for Lap/Stitch Applications!***

T17 FASTLOK™ is an innovative solution when stitching 26 or 29 gauge metal panels together when fastener back-out resistance is required. The **T17 FASTLOK™** self-tapping point design will quickly penetrate multiple metal panels while locking the two panels together preventing the lap/stitch from separating in the most extreme weather conditions.
