
T17 MASTERGRIP™

T17 MASTERGRIP™ offers contractors and building roll formers a solution for many high wind environments. With the deep major thread design the **T17 MASTERGRIP™** provided by Lakeside Construction Fasteners allows the fastener to be embedded in all wood substrates for maximum pull-out! **T17 MASTERGRIP™** will secure the metal panel to the wood structure to help prevent panel pullover and shear in the most extreme high wind conditions!

T17 MASTERGRIP™ SYSTEM:

- **T17 cut point for quick Panel Penetration!**
- **Engineered head design for High Shear Environments!**
- **Special major thread design for High Pull-out!**
- **EPDM washer for Positive Seal!**
- **Innovative L3 Dura Protec™ coating to Prevent Red Rust!**

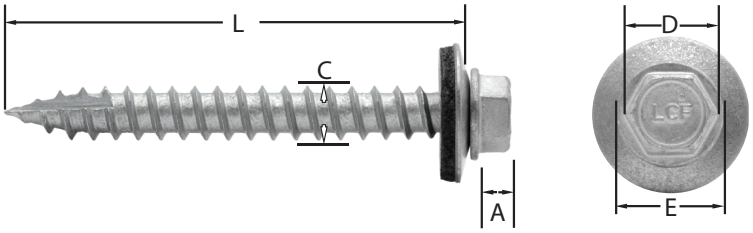
"Lakeside Construction Fasteners Providing Alternative Fastener Solutions!"™

T17 MASTERGRIP™

Fastener Dia.: #14
Head Size: 5/16"
Threads: 10 per inch
Innovation: T17 Cut Point
Material: C1022
Washer: EPDM
Coating System: L3 Dura Protec™



Part #	L	A	C	D	E
1410250EW3LPSG	1"	.155	.254	.305	.400
1415250EW3LPSG	1 1/2"	.155	.254	.305	.400
1420250EW3LPSG	2"	.155	.254	.305	.400
1425250EW3LPSG	2 1/2"	.155	.254	.305	.400
1430250EW3LPSG	3"	.155	.254	.305	.400
1440BCEW3LPSG	4"	.155	.254	.305	.400

Standard Options:

Wet Paint

Lakeside Packaging 250 PIECES

Customized Options:

Powder Coat

Lakeside Packaging 100 PIECES

H-LOW

#9 and #10 Self-Tappers Available Upon Request.

PULLOUT TEST VALUES

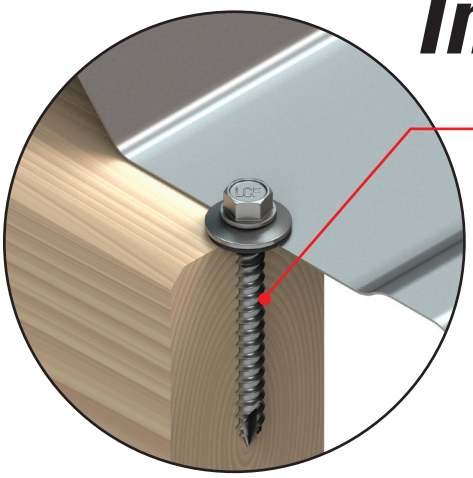
Fastener Type	Torsional	Shear	Tensile
#14 T17 MASTERGRIP™	125 in lbs.	3000 lbs.	4500 lbs.

Industry Fastener Leader!



T17 MASTERGRIP™ engineered thread design allows the fastener to penetrate the metal panel quickly while locking into multi-wood substrates (Pine; OSB; Plywood; etc.) to resist fastener-metal panel pull-out in high wind environments. The **T17 MASTERGRIP™** fastener will strengthen the building system securing the metal panel to the wood frame structure.
