COR-10 WOOD-X™

Lakeside Construction Fasteners, FULL SERVICE USA owned company offers a vast product line of fastener & foam alternative solutions. The new high-strength **COR-10 WOOD-X™** (#10 x 1"– 3") is engineered to secure corten metal panels into hardwood decking substrates, offers a sealed protective barrier, and pre-weathered for exact corten metal panel color match. No more waiting for your fasteners to be painted or weathered to match corten metal panels!! The low maintenance **COR-10 WOOD-X™** high-low threads and sharp T-17 cut point allows the fastener to quickly penetrate the corten metal panel for low cost installation!

Designed for Corten Metal Panels!

COR-10 WOOD-X™ SYSTEM:

- **H-LOW™ threads for Speed of Installation!**
- **T17 Cut point developed for High Performance!**
- **Engineered head flute resists High Torque Environments!**
- **EPDM washer for a Positive Seal!**
- **Pre-weathered for exact corten metal panel color match!**
